SCOPE OF WORK

1. **Maintenance of the existing live portal (<https://wbfactories.gov.in>) for the next 12 months.**
2. **Technology Transfer of the System**

There is an urgent and critical requirement to migrate the existing software from the current server infrastructure to a new, upgraded, and secure platform. The project was originally developed in Drupal 7 and PostgreSQL and all subsequent developments till date is continued in the same technology stack. It has been officially announced by drupal.org that support for Drupal 7 will be discontinued from January 5, 2025. Consequently, it is essential to revamp and migrate the project to a new technology stack. The proposed technology stack for this revamp is CodeIgniter with PostgreSQL as database.

The work may be categorized as follows:

- A. The development of new modules as per requirements gathered from the Factories Directorate.
- B. The re-engineering or revamping of existing modules to meet business requirements as gathered from the Factories Directorate.

2. Description of Work

The detailed functionalities of the categories mentioned in the scope are outlined below.

WEBEL TECHNOLOGY LIMITED

3.2. Application Architecture

WEBEL TECHNOLOGY LIMITED

As regard to Intellectual Property Rights, it is to be owned jointly by the Department, Directorate & WTL. WTL is the Technical Consultant and will be facilitating Software Design, Development and Implementation. In all the software Projects being implemented by WTL, it is clearly mentioned as a Disclaimer, that Contents & Data is owned by the respective Department/Directorate.

3.3. Technology Stack

The development of existing software, as available at <https://wbfactories.gov.in> was started using Drupal 7 and PostgreSQL long back and all the subsequent developments and maintenance till date is continued in the same technology stack.

Furthermore, it has been officially announced by drupal.org that support for Drupal 7 will be discontinued from January 5, 2025. Consequently, it is essential to revamp and migrate the project to a new technology stack. The proposed technology stack for this revamp is CodeIgniter with PostgreSQL as database.

The comprehensive revamp and technology transfer of the software will be conducted in parallel with the development of new modules and ongoing maintenance activities.

****The comprehensive technology transfer may extend beyond the timeline specified in this proposal.**

4. Project Duration and Milestones

The duration of the engagement is 6 months (Development of New Modules and Re-engineering/ Revamping of the Directorate of Factories Portal) and can be extended further as per mutual agreement between the appropriate authority of Labour Department, GoWB.
